Forward-Looking Statements / Non-GAAP Financial Measures

This presentation contains forward-looking statements. These forward-looking statements are identified as any statement that does not relate strictly to historical or current facts. In particular, statements, express or implied, concerning future actions, conditions or events, future operating results or the ability to generate revenues, income or cash flow or to make distributions or pay dividends are forward-looking statements. Forward-looking statements are not guarantees of performance. They involve risks, uncertainties and assumptions. Future actions, conditions or events and future results of operations of Kinder Morgan Energy Partners, L.P., Kinder Morgan Management, LLC, El Paso Pipeline Partners, L.P., and Kinder Morgan, Inc. may differ materially from those expressed in these forward-looking statements. Many of the factors that will determine these results are beyond Kinder Morgan's ability to control or predict. These statements are necessarily based upon various assumptions involving judgments with respect to the future, including, among others, the ability to achieve synergies and revenue growth; national, international, regional and local economic, competitive and regulatory conditions and developments; technological developments; capital and credit markets conditions; inflation rates; interest rates; the political and economic stability of oil producing nations; energy markets; weather conditions; environmental conditions; business and regulatory or legal decisions; the pace of deregulation of retail natural gas and electricity and certain agricultural products; the timing and success of business development efforts; terrorism; and other uncertainties. There is no assurance that any of the actions, events or results of the forward-looking statements will occur, or if any of them do, what impact they will have on our results of operations or financial condition. Because of these uncertainties, you are cautioned not to put undue reliance on any forward-looking statement.

We use non-generally accepted accounting principles ("non-GAAP") financial measures in this presentation, and our reconciliations of non-GAAP financial measures to our GAAP financial statements are on our website, at www.kindermorgan.com. These non-GAAP measures should not be considered an alternative to GAAP financial measures.

Total Distributions (GP + LP) ($MM)

KMP Annual LP Distribution per Unit (b)

Net Debt to EBITDA (c,d)

Note: excludes any impact from the proposed acquisition of El Paso by KMI

(a) In 2010, total distributions paid were $2.280 million. These distributions would have been $2,450 million ($170 million greater) if all distributions paid in August 2010 had been cash from operations, rather than a portion being a distribution of cash from interim capital transactions; the GP receives only 2% of distributions of cash from interim capital transactions. 2012 budget

(b) Annual LP declared distributions, rounded to 2 decimals where applicable. 2012 forecast

(c) Debt is net of cash and excluding fair value of interest rate swaps

(d) For KMI, net debt also excludes purchase accounting and Kinder Morgan G.P., Inc.’s preferred stock; distributions received from equity investees net of G&A and sustaining capital expenditures = EBITDA
