Forward Looking Statements

This presentation contains forward looking statements, including these, within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Exchange Act of 1934, as amended. Forward looking statements are not guarantees of performance. They involve risks, uncertainties and assumptions. The future results and securities values of Kinder Morgan Inc., Kinder Morgan Energy Partners, L.P. and Kinder Morgan Management, LLC (collectively known as “Kinder Morgan”) may differ materially from those expressed in the forward-looking statements contained throughout this presentation and in documents filed with the SEC. Many of the factors that will determine these results and values are beyond Kinder Morgan's ability to control or predict. These statements are necessarily based upon various assumptions involving judgments with respect to the future, including, among others, the ability to achieve synergies and revenue growth; national, international, regional and local economic, competitive and regulatory conditions and developments; technological developments; capital markets conditions; inflation rates; interest rates; the political and economic stability of oil producing nations; energy markets; weather conditions; environmental conditions; business and regulatory or legal decisions; the pace of deregulation of retail natural gas and electricity and certain agricultural products; the timing and success of business development efforts; terrorism; and other uncertainties. You are cautioned not to put undue reliance on any forward-looking statement.

Approximate \$ Coverage (a) (millions)

a) Approximate coverage is the actual net income before DD&A less sustaining cap ex, the cash required to pay the declared distribution to the LPs and the incentive distribution to the GP.

The Kinder Morgan Strategy

Same Strategy Since Inception

- **Focus on stable, fee-based assets which are core to the energy infrastructure of growing markets**
- **Increase utilization of assets while controlling costs**
 - Classic fixed cost businesses with little variable costs
 - Improve productivity to drop all top-line growth to bottom line
- **Leverage economies of scale from incremental acquisitions and expansions**
 - Reduce needless overhead
 - Apply best practices to core operations
- **Maximize benefit of a unique financial structure which fits with strategy**
 - MLP avoids double taxation, increasing distributions from high cash flow businesses
 - Strong balance sheet allows flexibility when raising capital for acquisitions / expansions

Management Philosophy

■ Low Cost Asset Operator

- Senior management limited to \$200,000 per year in base salary
- No planes, sports tickets, etc.

■ Attention to Detail

- Weekly operations and financial assessment
- Monthly earnings and accounts receivable review
- Quarterly strategic review

■ Risk Management

- Avoid businesses with direct commodity price exposure wherever possible
- Hedge incidental commodity price risk

■ Alignment of Incentives

- Bonus targets are tied to published budget – KMP DCF of \$2.84 and KMI EPS of \$3.71 for 2004
- Senior management has KMI restricted stock. All other employees have options.
- Rich Kinder has the largest equity stake in the energy industry — 20% in KMI
- He receives \$1 per year in salary, no bonus, no options
