Stable Platforms, Exceptional Growth

January 25, 2012
IMPORTANT ADDITIONAL INFORMATION WILL BE FILED WITH THE SEC

Kinder Morgan, Inc. ("KMI") has filed with the SEC a Registration Statement on Form S-4 in connection with the merger agreement providing for the proposed acquisition of El Paso Corporation ("EP"), including a preliminary Information Statement/Prospectus of KMI and a preliminary Proxy Statement of EP. The Registration Statement has not yet become effective. Following the Registration Statement having been declared effective by the SEC, KMI and EP plan to file with the SEC and mail to their respective stockholders a definitive Information Statement/Proxy Statement/Prospectus in connection with the proposed transaction. INVESTORS AND SECURITY HOLDERS ARE URGED TO READ THE REGISTRATION STATEMENT AND THE PRELIMINARY INFORMATION STATEMENT/PROXY STATEMENT/PROSPECTUS AND ANY OTHER RELEVANT DOCUMENTS FILED OR TO BE FILED BY KMI OR EP, INCLUDING THE DEFINITIVE INFORMATION STATEMENT/PROXY STATEMENT/PROSPECTUS, BECAUSE THEY CONTAIN OR WILL CONTAIN IMPORTANT INFORMATION. Investors and security holders are able to obtain free copies of the Registration Statement and the preliminary Information Statement/Proxy Statement/Prospectus and other documents filed with the SEC by KMI and EP through the web site maintained by the SEC at www.sec.gov or by phone, e-mail or written request by contacting the investor relations department of KMI or EP at the following:

This communication shall not constitute an offer to sell or the solicitation of an offer to buy any securities, nor shall there be any sale of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to the registration or qualification under the securities laws of any such jurisdiction. No offering of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended.

PARTICIPANTS IN THE SOLICITATION

KMI and EP, and their respective directors and executive officers, may be deemed to be participants in the solicitation of proxies in respect of the proposed transactions contemplated by the merger agreement. Information regarding KMI's directors and executive officers is contained in KMI's Form 10-K for the year ended December 31, 2010, which has been filed with the SEC. Information regarding EP’s directors and executive officers is contained in EP’s Form 10-K for the year ended December 31, 2010 and its proxy statement dated March 29, 2011, which are filed with the SEC. A more complete description will be available in the Registration Statement and the Information Statement/Proxy Statement/Prospectus.

SAFE HARBOR FOR FORWARD-LOOKING STATEMENTS

Statements in this document regarding the proposed transaction between KMI and EP, the expected timetable for completing the proposed transaction, future financial and operating results, benefits and synergies of the proposed transaction, future opportunities for the combined company, the sale of EP’s exploration and production assets, the possible drop-down of assets and any other statements about KMI or EP management’s future expectations, beliefs, goals, plans or prospects constitute forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Any statements that are not statements of historical fact (including statements containing the words “believes,” “plans,” “anticipates,” “expects,” “estimates” and similar expressions) should also be considered to be forward looking statements. There are a number of important factors that could cause actual results or events to differ materially from those indicated by such forward looking statements, including: the ability to consummate the proposed transaction; the ability to obtain the requisite regulatory, shareholder approvals and the satisfaction of other conditions to consummation of the transaction; the possibility that financing might not be available on the terms committed; the ability to consummate contemplated asset sales; the ability of KMI to successfully integrate EP’s operations and employees; the ability to realize anticipated synergies and cost savings; the potential impact of announcement of the transaction or consummation of the transaction on relationships, including with employees, suppliers, customers and competitors; the ability to achieve revenue growth; national, international, regional and local economic, competitive and regulatory conditions and developments; technological developments; capital and credit markets conditions; inflation rates; interest rates; the political and economic stability of oil producing nations; energy markets, including changes in the price of certain commodities; weather conditions; environmental conditions; business and regulatory or legal decisions; the pace of deregulation of retail natural gas and electricity and certain agricultural products; the timing and success of business development efforts; terrorism; and the other factors described in KMI’s and EP’s Annual Reports on Form 10 K for the year ended December 31, 2010 and their most recent quarterly reports filed with the SEC. KMI and EP disclaim any intention or obligation to update any forward looking statements as a result of developments occurring after the date of this document.
Use of Non-GAAP Financial Measures

KMP
The non-generally accepted accounting principles ("non-GAAP") financial measures of distributable cash flow before certain items (both in the aggregate and per unit), segment earnings before depreciation, depletion, amortization and amortization of excess cost of equity investments ("DD&A") and certain items, segment distributable cash flow before certain items, and earnings before interest, taxes and DD&A ("EBITDA") before certain items are included in this presentation. Our non-GAAP financial measures may be different from those used by others, and should not be considered as alternatives to GAAP measures such as net income or any other GAAP measure of liquidity or financial performance.

Distributable cash flow before certain items and EBITDA before certain items are significant metrics used by us and by external users of our financial statements, such as investors, research analysts, commercial banks and others, to compare basic cash flows generated by us to the cash distributions we expect to pay our unitholders on an ongoing basis. Management uses these metrics to evaluate our overall performance. Distributable cash flow before certain items also allows management to simply calculate the coverage ratio of estimated ongoing cash flows to expected cash distributions. Distributable cash flow before certain items and EBITDA before certain items are also important non-GAAP financial measures for our unitholders because they serve as indicators of our success in providing a cash return on investment. These financial measures indicate to investors whether or not KMP typically is generating cash flow at a level that can sustain or support an increase in the quarterly distributions we are paying pursuant to the KMP partnership agreement. The partnership agreement requires us to distribute all available cash.

Distributable cash flow before certain items and EBITDA before certain items are quantitative measures used in the investment community because the value of a unit of such an entity is generally determined by the unit’s yield (which in turn is based on the amount of cash distributions the entity pays to a unitholder). The economic substance behind our use of distributable cash flow before certain items and EBITDA before certain items is to measure and estimate the ability of our assets to generate cash flows sufficient to make distributions to our investors.

We define distributable cash flow before certain items to be limited partners' pretax income before certain items and DD&A, less cash taxes paid and sustaining capital expenditures for KMP, plus DD&A less sustaining capital expenditures for Rockies Express, Midcontinent Express, Fayetteville Express, KinderHawk (through second quarter 2011), Eagle Hawk, Red Cedar and Cypress, our equity method investees, less equity earnings plus cash distributions received for Express and Endeavor, additional equity investees. Distributable cash flow before certain items per unit is distributable cash flow before certain items divided by average outstanding units. Segment distributable cash flow before certain items is segment earnings before certain items and DD&A less sustaining capital expenditures. In certain instances to calculate segment distributable cash flow, we also add DD&A less sustaining capital expenditures for Rockies Express, Midcontinent Express, Fayetteville Express, KinderHawk (through second quarter 2011), Eagle Hawk, Red Cedar and Cypress, our equity method investees. We define EBITDA before certain items as pretax income before certain items, plus interest expense and DD&A, including the DD&A of REX, MEP, FEP, KinderHawk (through second quarter 2011), Eagle Hawk, Red Cedar and Cypress, our equity method investees.
Use of Non-GAAP Financial Measures – Cont’d

"Certain items" are items that are required by GAAP to be reflected in net income, but typically either (1) do not have a cash impact, for example, goodwill impairments, allocated compensation for which we will never be responsible, and results from assets prior to our ownership that are required to be reflected in our results due to accounting rules regarding entities under common control, or (2) by their nature are separately identifiable from our normal business operations and in our view are likely to occur only sporadically, for example legal settlements, hurricane impacts and casualty losses. Management uses this measure and believes it is important to users of our financial statements because it believes the measure more effectively reflects our business’ ongoing cash generation capacity than a similar measure with the certain items included. For similar reasons, management uses segment earnings before DD&A and certain items and segment distributable cash flow before certain items in its analysis of segment performance and managing our business. We believe segment earnings before DD&A and certain items and segment distributable cash flow before certain items are significant performance metrics because they enable us and external users of our financial statements to better understand the ability of our segments to generate cash on an ongoing basis. We believe they are useful metrics to investors because they are measures that management believes are important and that our chief operating decision makers use for purposes of making decisions about allocating resources to our segments and assessing the segments’ respective performance.

We believe the GAAP measure most directly comparable to distributable cash flow before certain items and to EBITDA before certain items is net income. Segment earnings before DD&A is the GAAP measure most directly comparable to segment earnings before DD&A and certain items and segment distributable cash flow before certain items.

Our non-GAAP measures described above should not be considered as an alternative to GAAP net income, segment earnings before DD&A or any other GAAP measure. Distributable cash flow before certain items, segment earnings before DD&A and certain items, segment distributable cash flow before certain items and EBITDA before certain items are not financial measures in accordance with GAAP and have important limitations as analytical tools. You should not consider any of these non-GAAP measures in isolation or as a substitute for an analysis of our results as reported under GAAP. Because distributable cash flow before certain items and EBITDA before certain items exclude some but not all items that affect net income and because these measures are defined differently by different companies in our industry, our distributable cash flow before certain items and EBITDA before certain items may not be comparable to similarly titled measures of other companies. Segment earnings before DD&A and certain items and segment distributable cash flow have similar limitations. Management compensates for the limitations of these non-GAAP measures by reviewing our comparable GAAP measures, understanding the differences between the measures and taking this information into account in its analysis and its decision making processes.

The maps contained in this presentation have been carefully compiled and printed by Kinder Morgan from available information. Kinder Morgan does not guarantee the accuracy of these maps or information delineated thereon, nor does Kinder Morgan assume responsibility for any reliance thereon. Recipient agrees not to copy, distribute or digitize this map without express consent from Kinder Morgan or its affiliates.

For certain financial information in this presentation, a reconciliation of these measures to the most comparable GAAP measures is included in the Appendix to this presentation.
KMI
The non-generally accepted accounting principles, or non-GAAP, financial measure of cash available to pay dividends is presented in this news release. This non-GAAP financial measure should not be considered as an alternative to a GAAP measure such as net income or any other GAAP measure of liquidity or financial performance. Cash available to pay dividends is a significant metric used by us and by external users of our financial statements, such as investors, research analysts, commercial banks and others, to compare basic cash flows generated by us to the cash dividends we expect to pay our shareholders on an ongoing basis. Management uses this metric to evaluate our overall performance. Cash available to pay dividends is also an important non-GAAP financial measure for our shareholders because it serves as an indicator of our success in providing a cash return on investment. This financial measure indicates to investors whether or not we typically are generating cash flow at a level that can sustain or support an increase in the quarterly dividends we are paying. Our dividend policy provides that, subject to applicable law, we will pay quarterly cash dividends generally representing the cash we receive from our subsidiaries less any cash disbursements and reserves established by our board of directors. Cash available to pay dividends is also a quantitative measure used in the investment community because the value of a share of an entity like KMI that pays out all or a substantial proportion of its cash flow, is generally determined by the dividend yield (which in turn is based on the amount of cash dividends the corporation pays to its shareholders). The economic substance behind our use of cash available to pay dividends is to measure and estimate the ability of our assets to generate cash flows sufficient to pay dividends to our investors.

We believe the GAAP measure most directly comparable to cash available to pay dividends is income from continuing operations. A reconciliation of cash available to pay dividends to income from continuing operations is provided in this release. Our non-GAAP measure described above should not be considered as an alternative to GAAP net income and has important limitations as an analytical tool. Our computation of cash available to pay dividends may differ from similarly titled measures used by others. You should not consider this non-GAAP measure in isolation or as a substitute for an analysis of our results as reported under GAAP. Management compensates for the limitations of this non-GAAP measure by reviewing our comparable GAAP measures, understanding the differences between the measures and taking this information into account in its analysis and its decision making processes.

The maps contained in this presentation have been carefully compiled and printed by Kinder Morgan from available information. Kinder Morgan does not guarantee the accuracy of these maps or information delineated thereon, nor does Kinder Morgan assume responsibility for any reliance thereon. Recipient agrees not to copy, distribute or digitize this map without express consent from Kinder Morgan or its affiliates.

For certain financial information in this presentation, a reconciliation of these measures to the most comparable GAAP measures is included in the Appendix to this presentation.

Vision

Rich Kinder

Chief Executive Officer
Then (first analyst conference-2001) and Now:
Stable Platforms, Exceptional Growth

Then (a)
- Enterprise value of $14B (c)
- KMP Total distributions of $333MM
- KMP LP distribution of $1.71/unit (d)
- 3,569 employees

Now (b) (excluding El Paso)
- Enterprise value of $63B (c)
- KMP Total distributions of $3.1B
- KMP LP distribution of $4.98/unit
- 8,328 employees

Note: excludes any impact from the proposed acquisition of El Paso by KMI
(a) As of and for the year ended 12/31/2000, representing Kinder Morgan at the time of the inaugural Kinder Morgan analyst day held 1/24/2001
(b) Enterprise value / employees as of and for the year ended 12/31/2011, KMP total distributions / KMP LP distribution per unit represent the budget for 2012
(c) Kinder Morgan Energy Partners, L.P., Kinder Morgan Management, LLC and Kinder Morgan, Inc. combined
(d) Split-adjusted
Stayed the Course

- Focus on stable fee-based assets that are core to North American energy infrastructure
  - Market leader in each of our business segments

- Control costs
  - It’s the investors’ money, not management’s – treat it that way

- Leverage asset footprint to seek attractive capital investment opportunities, both expansion and acquisition
  - KMP has completed $11.7 billion in acquisitions and $13.3 billion in greenfield / expansion projects since inception (a)

- Maintaining a strong balance sheet is paramount
  - Enables continued access to capital markets to grow the business
  - KMP accessed capital markets for nearly $26 billion since inception (a,b)

(a) From 1997 through 2011
(b) Gross capital issued, $24 billion net of refinancing
Kinder Morgan Asset Footprint

- Largest independent transporter of petroleum products in the U.S.
  - Transport ~1.9 MMBbl/d (a)
- 2nd largest transporter of natural gas in the U.S.
  - Own an interest in / operate over 25,000 miles of natural gas pipeline
  - Connected to many important natural gas shale plays including Eagle Ford, Haynesville, Fayetteville and Barnett
  - Largest provider of contracted natural gas treating services in U.S.
- Largest transporter of CO₂ in the U.S.
  - Transport ~1.3 Bcf/d of CO₂ (a)
- 2nd largest oil producer in Texas (b)
  - Produce ~51 MBbl/d of crude oil gross (~34 MBbl/d net) (a)
- Largest independent terminal operator in the U.S.
  - Own an interest in or operate ~180 liquids / dry bulk terminals (c)
  - ~111 MMBbls domestic liquids capacity (d)
  - Handle ~108 MMTons of dry bulk products (a)
    - Including 44 MMTons of coal (a)
- Only Oilsands pipeline serving the West Coast
  - TMPL transports ~300 MBbl/d to Vancouver / Washington State

Note: excludes El Paso
(a) 2012 budget
(b) 2011 data not available
(c) Excludes transload facilities (35) and transmix processing facilities (6)
(d) Includes leased capacity
Kinder Morgan: Three Ways to Invest

Kinder Morgan Energy Partners, L.P.
- Market Equity: $28.0B (a)
- Debt: 12.4B (b)
- Enterprise Value: $40.4B
- 2012E LP Distribution per Unit: $4.98 (c)
- 2012E Total Distributions: $3.1B (c)

Kinder Morgan, Inc.
- Market Equity: $22.8B (d)
- Debt: 3.2B (e)
- Enterprise Value: $26.0B
- 2012E Dividend per Share: $1.35 (c)
- 2012E Total Dividends: $956MM (c)

Distributions in additional i-units / shares
- KMR (LLC) 99 million shares (a)
- KMP (Partnership) 238 million units (a)
- KMI (Inc.) 707 million shares (d)

Cash distributions
- KMI Public Float 14MM (14%)
- KMP Public Float 216MM (91%)
- KMI Management / Original S/H 22MM (9%)

Management / Original S/H
- KMI Sponsors 114MM (16%)
- KMI Public Float 320MM (45%)
- KMI Management / Original S/H 273MM (39%)

Note: excludes any impact from the proposed acquisition of El Paso by KMI
(a) As of 12/30/2011; KMP market equity based on ~238 million common units (includes 5.3 million Class B units owned by Kinder Morgan, Inc.; Class B units are unlisted KMP common units) at a price of $84.95, and ~99 million KMR shares at a price of $78.52
(b) Debt balance as of 12/31/2011, excludes the fair value of interest rate swaps, net of cash
(c) 2012 budget
(d) As of 12/30/2011; KMI market equity based on 707 million shares (assumes full conversion of Class A, B and C shares into Class P shares) at a price of $32.17
(e) Debt of KMI and its subsidiaries, excluding KMP and its subsidiaries as of 12/31/2011; excludes the fair value of interest rate swaps, purchase accounting and Kinder Morgan G.P., Inc.’s $100 million of Series A Fixed-to-floating Rate Term Cumulative Preferred Stock due 2057, net of cash
Delivering Consistent Growth

Total Distributions (GP + LP) ($MM)

KMP Annual LP Distribution per Unit (b)

Net Debt to EBITDA (c,d)

Note: excludes any impact from the proposed acquisition of El Paso by KMI
(a) In 2010, total distributions paid were $2,250 million. These distributions would have been $2,420 million ($170 million greater) if all distributions paid in August 2010 had been cash from operations, rather than a portion being a distribution of cash from interim capital transactions; the GP receives only 2% of distributions of cash from interim capital transactions
(b) Annual LP declared distributions, rounded to 2 decimals where applicable
(c) Debt is net of cash and excluding fair value of interest rate swaps
(d) For KMI, net debt also excludes purchase accounting and Kinder Morgan G.P., Inc.’s preferred stock; distributions received from equity investees net of G&A and sustaining capital expenditures = EBITDA
Significant Historical Returns (a)

**KMP: 26% CAGR Since ‘96 (b)**

- **AMZ (d) = $1,003**
- **KMP = $3,362**
- **S&P 500 = $222**

**KMR: 16% CAGR Since ‘01 (c)**

- **AMZ (d) = $464**
- **KMR = $474**
- **S&P 500 = $124**

**KMI: 11.4% Initial Annualized Return (e)**

- **UTY = $117**
- **KMI = $110**
- **MSCI = $104**
- **S&P 500 = $97**

(a) Total returns calculated on daily basis through 12/30/2011, except where noted; assumes dividends / distributions reinvested in index / stock / unit
(b) Start date 12/31/1996
(c) Start date 5/14/2001: KMR initial public offering; KMP CAGR over same period is 16%
(d) Alerian MLP index
(e) Annualized total return based on partial year return following IPO on 2/10/2011; partial-year return for period is 10.0%
(f) Calculated through 12/30/2011; start dates for 2-year, 3-year, 5-year and 10-year return calculations are 12/31/2009, 12/29/2008, 12/31/2006 and 12/31/2001, respectively
## Promises Made, Promises Kept

### KMP Budgeted LP Distribution:
- 2000: $1.60
- 2001: $1.95
- 2002: $2.40
- 2003: $2.63
- 2004: $2.84
- 2005: $3.13
- 2006: $3.28
- 2007: $3.44
- 2008: $4.02
- 2009: $4.20
- 2010: $4.40
- 2011: $4.60

### KMP Actual LP Distribution:
- 2000: $1.71
- 2001: $2.15
- 2002: $2.435
- 2003: $2.63
- 2004: $2.87
- 2005: $3.13
- 2006: $3.26
- 2007: $3.48
- 2008: $4.02
- 2009: $4.20
- 2010: $4.40
- 2011: $4.61

### KMI Budgeted Dividend:
- 2011: $1.16 (a)

### KMI Actual Dividend:
- 2011: $1.18 (a)

---

(a) On a paid basis; KMI paid a prorated dividend for 1Q 2011 of $0.14 per share on 5/16/2011; based on a full quarter, the dividend amounts to $0.29 per share.
Kinder Morgan 2012 Goals (Excludes El Paso)

**KMP (a)**
- **Distribution Target**
  - $4.98 per unit (8.0% growth)
  - Excess coverage of $71MM
- **Maintain Solid Balance Sheet**
  - Yr-end 2012 debt / EBITDA = 3.4x
  - Expansions / acquisitions financed 50% equity, 50% debt

**KMI (a,b)**
- **Dividend Target (declared)**
  - $1.35 per share (12.5% growth)
  - $985MM in cash available for dividends
- **Maintain Solid Balance Sheet**
  - Yr-end 2012 debt / distributions received less G&A = 2.1x

- Operate all of our assets in a safe, compliant and environmentally sound manner

---

(a) Excludes any impact from the proposed acquisition of El Paso by KMI
(b) KMI previously announced that if the El Paso transaction were to close on January 1, 2012, KMI would expect to pay dividends per share of around $1.45 for 2012; since the transaction will not be in effect for the full year 2012, KMI’s actual dividend in 2012 will likely be less than $1.45
Well-Diversified Cash Flow

**CO₂**
- $1,381MM segment EBDA
  - 26% CO₂ transport and sales
  - 74% oil production related
  - Production hedged (b):
    - 2012=77% ($91) (c)
    - 2013=51% ($92)
    - 2014=31% ($93)
    - 2015=13% ($98)

**Terminals**
- $757MM segment EBDA
  - 54% Liquids
  - 46% Bulk

**Kinder Morgan Canada**
- $201MM segment EBDA

**2012E KMP Segment Earnings before DD&A = $4.4 billion (a,d)**

**Natural Gas Pipelines**
- $1,303MM segment EBDA (d)
  - 41% Interstate
  - 59% Intrastate (e)

**Products Pipelines**
- $735MM segment EBDA (d)
  - 52% Pipelines
  - 44% Associated Terminals
  - 4% Transmix

Note: excludes any impact from the proposed acquisition of El Paso by KMI
(a) Budgeted 2012 segment earnings before DD&A excluding certain items
(b) Percent of estimated net crude oil and heavy natural gas liquids production; see slide 34 for further detail
(c) 2012 budget assumes an $93.75/Bbl price on unhedged barrels
(d) Includes $171 million of depreciation for Natural Gas Pipelines JVs REX, MEP, FEP, Eagle Ford (Copano), EagleHawk and Red Cedar, and Products Pipelines JV Cypress
(e) Includes upstream assets

Note: excludes any impact from the proposed acquisition of El Paso by KMI
(a) Transportation for intrastate pipelines includes term purchase and sale portfolio
(b) Assumes 1-year rate 2012 settlement on Trans Mountain
(c) Percent of 2012 expected production, includes heavier NGL components (C4+)
(d) Terminals not FERC regulated, except portion of CALNEV
## 2-3% Annual Distribution Growth without Investment

### Current Environment

#### Products Pipelines
- PPI escalator
- Renewables handling
- Volumes

#### Current Environment

#### CO₂
- Higher price on oil hedges
- Higher overall oil / NGL prices
- Recontracting CO₂ supply
- Oil / NGL volumes

#### Terminals
- Annual escalator
- Volumes & ancillary charges
- Renewing contracts

#### Natural Gas
- Volume growth (shale & power)
- Gathering, processing & treating
- Intrastate margins
- Storage margins
- Transport renewals
- Storage renewals

---

Note: excludes any impact from the proposed acquisition of El Paso by KMI
2012 Growth Expenditures

2012E Total KMP Growth Expenditures = $1.7 billion (a,b,c)

- Natural Gas Pipelines (a)
  - 15%
- Products Pipelines (a,b)
  - 19%
- Terminals (a,b,c)
  - 40%
- CO₂ Oil Production
  - 17%
- CO₂ S&T
  - 9%

Note: excludes any impact from the proposed acquisition of El Paso by KMI
(a) Includes equity contributions to joint ventures of $233 million
(b) Includes growth capital expenditures for Kinder Morgan Canada of $10 million
(c) Includes acquisitions of $108 million
Natural Gas Pipelines Growth Drivers

2012 Growth Drivers:
- Growth and full year contribution on Kinder Hawk
- Full year contribution from Eagle Hawk and SouthTex
- Eagle Ford shale development (on standalone basis, and under JVs with Copano and BHP)
- Full year of higher throughput on Fayetteville Express (FEP) pipeline (volume ramp through 2011)
- West Clear Lake storage contract rollover

Longer-term Growth Drivers:
- Natural gas is the logical fuel of choice
  - Cheap, abundant, domestic and clean
- Demand growth and shifting supply from multiple basins lead to:
  - Pipeline / storage expansions and extensions (e.g. Eagle Ford)
  - Greenfield development
  - Optionality of deploying portions of existing footprint in different product uses
- Expand service offerings to customers (e.g. treating and G&P)
- LNG exports
- Acquisitions

Note: excludes any impact from the proposed acquisition of El Paso by KMI
2012 Growth Drivers:
- PPI tariff escalator
- Modest organic volume growth
- Initial year of Crude and Condensate operations, Cochin E/P project, and terminal projects including new tank expansions for refined products and biodiesel blending services

Longer-term Growth Drivers:
- Development of shale play liquids infrastructure
  - Condensate transportation, processing and storage services from Eagle Ford
    - Condensate processing facility located in Houston Ship Channel, in-service Jan-2014
  - Crude / condensate service on Cochin
- Parkway Pipeline in-service 2013
- Increased fuel export opportunities
- RFS (a) increases demand for storage and ancillary services
  - Ethanol and biodiesel growth including terminals and pipeline expansions
- Tariff index adjustments / organic volume growth
- Tuck-in acquisitions

(a) RFS (U.S. Renewable Fuels Standard) requires an increase in use of renewable fuels, from 15 Bgal/yr in 2012 to 36 Bgal/yr in 2022
Terminals Growth Drivers

2012 Growth Drivers:
- Increase in rates on existing contracts
- Higher coal throughput
- Full year of 2011 acquisitions (Cushing, Total, Watco) and expansion projects (Carteret, Cushing, Deer Park, Port of Houston)
- Partial benefit from over $650 million in 2012 expected growth expenditures

Longer-term Growth Drivers:
- Newbuild and expansion of export coal and petcoke terminals (IMT, Houston, Whiting)
- Expansions and higher rates at well-located, high-connectivity terminals
- Petroleum exports
- Canadian crude oil merchant tankage
- Increase in use of renewable fuels (a) leads to ethanol / biofuel expansion
- Acquisition of terminals from “mom and pop” owners and from majors

(a) RFS (U.S. Renewable Fuels Standard) requires an increase in use of renewable fuels, from 15 Bgal/yr in 2012 to 36 Bgal/yr in 2022
CO₂ Growth Drivers

2012 Growth Drivers:
- Higher overall oil / NGL prices
- CO₂ S&T price increases
- Relatively flat oil production

Longer-term Growth Drivers:
- Strong demand for CO₂
  - Expansion of CO₂ source fields and pipelines
    - Expect to execute several large, long-term CO₂ S&T contracts
  - Higher rates and better terms on new/renewed CO₂ S&T contracts
- Billions of barrels of domestic oil still in place to be recovered at SACROC, Yates and Katz
Kinder Morgan Canada Growth Drivers

**2012:**
- Extending new toll settlement on Trans Mountain pipeline (TMPL); results in relatively flat financial performance between 2011 and 2012

**Longer-term Growth Drivers:**
- Expand Oilsands export capacity to West Coast and Asia
  - TMPL is lowest-cost option with ability to do staged expansions, or one large expansion
  - Open season underway for firm commitments to major expansion
- Expanded dock capabilities (Vancouver)
KMI
Overview – 99% of Cash Comes from KMP

- Limited capital expenditures at KMI

- Stock ownership:
  - Public – 16%
  - Rich Kinder, other management and original stockholders – 39%
  - Sponsors – 45%

- In 2012:
  - KMI expects to receive $1.6 billion in distributions
  - $985 million budgeted cash available for dividends after paying cash taxes, cash interest and G&A

General Partner interest receives incentive distributions from KMP

KMI owns ~11% of total limited partner interests

---

Note: excludes any impact from the proposed acquisition of El Paso by KMI
(a) 2012 budget
(b) 20% equity interest; KMI is operator of Natural Gas Pipeline Company of America
(c) As of 12/31/2011; includes: (i) general partner interest, (ii) 21.7 million KMP units and (iii) 14.1 million KMR shares
Growth in KMP Distributions Leads to KMI Growth

An 8% increase in the annualized LP distribution per unit from $4.61 to $4.98 with a 16MM unit increase in KMP units outstanding results in an increase of 15%, or $205MM, in total distributions to KMI (a)

Note: excludes any impact from the proposed acquisition of El Paso by KMI
(a) 2012 budget
El Paso Update
Strong Asset Base (a)

(a) Shows all current Kinder Morgan assets and El Paso pipeline assets.
El Paso Transaction Timeline

- El Paso E&P sale process under way
  - Targeting closing all or a material portion of E&P asset portfolio around time of closing of El Paso acquisition
  - Integration plan being developed – targeting $350 million of synergies
  - Expect Q1 2012 shareholder meetings

- HSR review underway
  - Pre-merger notifications filed
  - 2nd request received
  - Providing additional information to FTC

- Expect Q2 2012 closing
## Dividend and Distribution Growth Targets

### KMI

**Current targets excluding El Paso**
- Declare budgeted 2012 dividends of $1.35 per share (12.5% growth)
- Targeted 10% long-term dividend growth rate

**Targets including El Paso**
- Estimate $1.45 per share dividend paid had El Paso transaction closed at the beginning of 2012
  - Since the transaction will not be in effect for the full year 2012, KMI’s actual dividend in 2012 will likely be less than $1.45 per share
  - Also have converted to declared basis from paid basis (for comparison $1.35/sh declared = $1.30/sh paid)
- Targeted 12.5% long-term dividend growth rate through 2015

### KMP

**Current targets excluding El Paso**
- Declare budgeted 2012 LP distributions of $4.98 per unit (8.0% growth)
- Targeted 5% long-term distribution growth rate

**Targets including El Paso**
- Targeted 7% long-term distribution growth rate, driven by expected dropdowns resulting from the EP transaction
KMI, KMP & KMR: Attractive Value Proposition

- Unparalleled asset footprint
- Established track record
- Industry leader in all business segments
- Experienced management team
- Supportive general partner
- Transparency to investors
- Attractive returns driven by combination of yield plus growth
Financial Excellence

Note: a definition of these measures may be found in the Appendix to this presentation

(a) G&A is deducted to calculate the KMP ROI, but is not allocated to the segments and therefore not deducted to calculate the individual Segment ROI
KMP Cost of Capital

- Operated in “50/50 splits” since 1997
- Cost of capital varies over time:
  - Current ~7.2% (a)
  - 2011 analyst conf 7.8%
  - 2010 analyst conf 8.8%
  - 2009 analyst conf 9.8%
  - 2008 analyst conf 9.0%
  - 2004 analyst conf 8.3%
  - 2003 analyst conf 9.1%
  - 2002 analyst conf 8.2%
- Long-term cost of capital ~9%
- Targeted unlevered returns typically 12-15% for pipelines (higher for CO₂)
  - Well in excess of long-term cost of capital
- Delivered attractive returns to LP investors
- Supportive GP
  - GP has demonstrated willingness to forego distributions for transitional time period for appropriate acquisitions or expansions (e.g., KinderHawk)
  - If we get to a point where we cannot deliver attractive returns to LP investors, we would consider other options

(a) As of 12/30/2011; calculation of current cost of capital can be found in the Appendix to this presentation
KMP Access to Capital

- Issued ~$25.8 billion of capital at KMP in the public markets since inception (a)
  - ~$11.9 billion in equity raised (a)
  - ~$13.9 billion in KMP long-term debt (~$12.1B net of refinancing)

- Accessed in difficult markets
  - Sep’01 to Sep’02 ~$1.9 billion in equity and debt issued (a)
  - Aug’07 to Dec’09 ~$7.6 billion in equity and debt issued (a)

- Limited equity issuance needed in 2012
  - KMR dividend = ~$491 million in 2012
  - KMP $385 million public secondary offering(s) / ATM program

Note: all figures as of 12/31/2011; excludes any impact from the proposed acquisition of El Paso by KMI
(a) Includes KMR share dividends
KMR 101 (a)

Discount Has Narrowed, But Still Wide

KMR is KMP

- KMR shares are pari passu with KMP units
- KMR dividend equal to KMP cash distribution, but paid in additional shares; effectively a dividend reinvestment program (b)
- Like KMP units, KMR shares are tax efficient — but with simplified tax reporting (no K-1s, UBTI)

KMR is a significant entity

- KMR market cap = $7.7 billion, ~30% of total KMP capitalization
- ~$20 million in daily liquidity

KMR has generated a 15.8% compound annual total return since ’01 IPO, vs. 16.1% for KMP

Although the KMR trading discount to KMP has narrowed, at 7.6% it still leaves substantial room for improvement

EP transaction expected to lead to more KMR issuance

- Highlighting the security and further improving liquidity
- Potential for KMP to become self-funding through KMR dividend
- Possibility of KMR share buybacks if quarterly dividends exceed equity funding needs

Insiders prefer KMR

- Management has purchased KMR at a rate of about 2:1 vs. KMP, or almost 7:1 excluding one transaction (c)
KMP CO₂ Oil Production Hedge Profile

- Avoid businesses with direct commodity exposure
- Hedge CO₂ BOE equivalent
  - Targeted minimum hedge amounts:
    - Current Year: 70%
    - Year 2: 50%
    - Year 3: 30%
    - Year 4: 10%

</tbody>
</table>

Avg Hedge Px
WTI & WTS ($/Bbl) (a)

- $90.64
- $92.23
- $93.40
- $98.11

Net Oil Production

(a) Where collars are used, pricing incorporated into average hedge price is the collar floor; for swaps and puts, strike price net of premium is used
(b) Net equity production: 2012 = budget; 2013-2016 = based on Netherland, Sewell reserve report plus Katz project estimated barrels; includes heavier NGL components (C4+)
KMP Risks

- **Regulatory**
  - Pacific Products Pipeline FERC / CPUC cases
  - Periodic rate reviews
  - Unexpected policy changes

- **Crude Oil Production Volumes**

- **Crude Oil Prices**
  - 2012 budget assumes $93.75/Bbl realized price on unhedged barrels
  - 2012 sensitivity is ~$5.8 million DCF per $1/Bbl change in crude oil prices

- **Economically Sensitive Businesses (e.g., steel terminals)**

- **Environmental**

- **Terrorism**

- **Interest Rates**
  - ~50% floating rate debt
  - The full-year impact of a 100-bp increase in rates equates to an approximate $65 million increase in interest expense

Note: excludes any impact from the proposed acquisition of El Paso by KMI
KMP Focused on Distribution Growth

- History of Delivering Distribution Growth (a):
  - 1-year growth = 4.8%
  - 3-year growth = 4.7%
  - 5-year growth = 7.2%

Note: excludes any impact from the proposed acquisition of El Paso by KMI
(a) Compound annual growth in KMP LP distributions per unit for the 1-year, 3-year and 5-year periods ending 12/31/2011
(b) Annual LP distribution, rounded to 2 decimals where applicable
KMP Drives KMI Growth

- Substantial cash flow
- Minimal capital expenditures at KMI level
- Strong balance sheet
- Growing distributions and investment at KMP drive KMI dividend growth

KMP Cash Distributions Received by KMI

Note: excludes any impact from the proposed acquisition of El Paso by KMI

(a) In 2010, total distributions paid to KMI (GP + LP) were $1,032 million. These distributions to KMI would have been $1,202 million ($170 million greater) if all distributions paid in August 2010 had been cash from operations, rather than a portion being a distribution of cash from interim capital transactions; the GP receives only 2% of distributions of cash from interim capital transactions.
Operational Excellence

Steve Kean

Chief Operating Officer
Operations Goals – Safe, Reliable, Efficient Operations

- Continuous reduction in risk to the public, employees, contractors, assets and the environment
- Continuous improvement in the efficiency and productivity of existing operations
- Well-executed expansions and effective integration of acquired operations
- Establish culture of excellence in operations
Efficiency

- Part of weekly asset review
  - Throughput
  - Operating costs (including energy use and L&U)
  - Sustaining capex updates

- Detailed, “bottoms up” budget process for operating expenses and sustaining capex
  - Separately identify safety and compliance needs; separately track spending on those items

- Shared best practices on common activities
  - Working groups
  - Quarterly KM operations meeting
KM Operating Efficiency

G&A per MMDth Natural Gas Received

O&M per MMDth Natural Gas Received

Source: third party analysis
Implementation Plan

Immediate Risk Reduction
- ROW protection programs
- Liquids pipeline O&M re-write
- EHS (environmental, health and safety) “boot camps” in Terminals
- Audits and assessments (annual program)
- Acceleration of certain pipeline integrity work
- PSM / RMP compliance (a)
- Tank and in-facility pipe integrity program
- Terminals SQE (safety, quality and environmental) ongoing
- Separate review of high consequence assets and operations

Systems-making

Compliance Routine
- Addressing operations performance in our existing processes — Operations Management System
  - Annual budget
  - Compensation
  - QBR’s
  - Operations quarterly meetings
  - Monthly business unit meetings
  - Monthly major projects review
  - Weekly asset meetings
- Compliance systems
  - OpsInfo extension (2008 – 11)
  - Datastream
  - Petris
  - Audit tracking system
  - Exceptions reported to business unit management
- Incident and near miss reporting systems
  - ERL
  - STARS
  - Incident Review Committee

Continuous Improvement
- Systems Improvement and extension
- Measuring, meeting, adjusting
- Training
- Auditing
- Working Groups – share best practices across Kinder Morgan

(a) “PSM” = Process Safety Management
“RMP” = Risk Management Plan
Compliance Summary

- **Key elements:**
  1. Clear statement of requirement, assignment of responsibility and deadline for completion, and
  2. Exception reporting to management

- **Performance:**
  - OpsInfo expanded to nearly 114,000 compliance actions per year
    - Timely compliance: 99.5% in 2011

- **Other items tracked:** regulatory changes, audit exceptions tracked and closed

Incidents & Releases: Natural Gas Pipeline ROW

Natural Gas Pipeline Incidents Rate (a)

Note: KM totals exclude non-DOT jurisdictional CO₂ Gathering and Crude Gathering for compatibility with industry comparisons

(a) An Incident means any of the following events:
   (1) An event that involves a release of gas from a pipeline or of a liquefied natural gas or gas from an LNG Facility and
      (i) A death, or personal injury necessitating in-patient hospitalization; or
      (ii) Estimated property damage, including cost of gas lost, of the operator or others, or both, of $50,000 or more; or
      (iii) Unintentional estimated gas loss of 3,000 Mcf or more
   (2) An event that results in an emergency shutdown of an LNG facility
   (3) An event that is significant, in the judgment of the operator, even though it did not meet the criteria of paragraphs (1) or (2)

(a) Industry average not available for Terminals
2012 Objectives

- Incident rates: better than industry average and better than the Kinder Morgan 3-year average; zero significant incidents
- Terminals SQE program
- Continued special emphasis on high consequence assets and operations
