Run By Shareholders, For Shareholders

KMI to Acquire KMP, KMR, and EPB

August 10, 2014
Forward-Looking Statements / Non-GAAP Financial Measures

IMPORTANT INFORMATION AND WHERE TO FIND IT

This communication may be deemed to be solicitation material in respect of the proposed acquisition by Kinder Morgan, Inc. ("KMI") of each of Kinder Morgan Energy Partners, L.P. ("KMP"), Kinder Morgan Management, LLC ("KM”) and El Paso Pipeline Partners, L.P. ("EPB") (collectively, the "Proposed Transactions"). KMI plans to file with the Securities and Exchange Commission ("SEC") a registration statement on Form S-4 in connection with the mergers. KMI will file with the SEC and mail to its security holders a proxy statement in connection with its special meeting. Each of KMP, KMR and EPB plans to file with the SEC and mail to its security holders a proxy statement/prospectus in connection with the Proposed Transactions. The registration statement, the KMI proxy statement and each proxy statement/prospectus will contain important information about KMI, KMP, KMR, EPB, the Proposed Transactions and related matters. INVESTORS AND SECURITY HOLDERS ARE URGED TO READ CAREFULLY THE REGISTRATION STATEMENT, THE APPLICABLE PROXY STATEMENT OR PROXY STATEMENT/PROSPECTUS WHEN THEY ARE AVAILABLE AND ANY OTHER DOCUMENTS TO BE FILED WITH THE SEC IN CONNECTION WITH THE PROPOSED MERGERS OR INCORPORATED BY REFERENCE IN THE PROXY STATEMENT OR THE PROXY STATEMENT/PROSPECTUS.

Investors and security holders will be able to obtain copies of the KMI proxy statement and each proxy statement/prospectus as well as other filings containing information about KMI, KMP, KMR and EPB, without charge, at the SEC's website, http://www.sec.gov. Copies of documents filed with the SEC by KMI, KMP, KMR and EPB will be made available free of charge on Kinder Morgan, Inc.’s website at http://www.kindermorgan.com/investor/ or by written request by contacting the investor relations department of KMI, KMP, KMR or EPB at the following address: 1001 Louisiana Street, Suite 1000, Houston, Texas 77002. Attention: Investor Relations or by phone at (713) 369-9490 or by email at km_ir@kindermorgan.com.

NO OFFER OR SOLICITATION

This communication shall not constitute an offer to sell or the solicitation of an offer to sell or the solicitation of an offer to buy any securities, nor shall there be any sale of securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction. No offer of securities shall be made except by means of a prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended.

PARTICIPANTS IN THE SOLICITATION

KMI, KMP, KMR and EPB, and their respective directors and executive officers, may be deemed to be participants in the solicitation of proxies in respect of the Proposed Transactions. Information regarding the directors and executive officers of KMI is contained in KMI’s Form 10-K for the year ended December 31, 2013 and its proxy statement filed on April 9, 2014, each of which has been filed with the SEC. Information regarding the directors and executive officers of KMP’s general partner and KMR, the delegate of KMP’s general partner, is contained in KMP’s Form 10-K for the year ended December 31, 2013, which has been filed with the SEC. Information regarding the directors and executive officers of KMR’s Form 10-K for the year ended December 31, 2013, which has been filed with the SEC. Information regarding the directors and executive officers of EPB’s general partner is contained in EPB’s Form 10-K for the year ended December 31, 2013, which has been filed with the SEC.

CAUTIONARY LANGUAGE CONCERNING FORWARD-LOOKING STATEMENTS

Statements in this communication regarding the Proposed Transactions involving KMI, KMP, KMR and EPB, the expected timetable for completing the Proposed Transactions, the expected benefit of the Proposed Transactions, future financial and operating results, future opportunities for the combined company and any other statements about management’s future expectations, beliefs, goals, plans or prospects constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Any statements that are not statements of historical fact (including statements containing the words “believes,” “plans,” “anticipates,” “expects,” “estimates” and similar expressions) should also be considered to be forward-looking statements. There are a number of important factors that could cause actual results or events to differ materially from those indicated by such forward-looking statements, including: the ability to consummate the Proposed Transactions; the ability to obtain requisite regulatory and shareholder or unitholder approval and the satisfaction of the other conditions to the consummation of the Proposed Transactions; the ability to realize anticipated synergies and cost savings; the potential impact of the announcement or consummation of the Proposed Transactions on relationships, including with employees, suppliers, customers and competitors; the ability to achieve revenue growth; the effects of environmental, legal, regulatory or other uncertainties; the effects of government regulations and policies and of the pace of deregulation of retail natural gas; national, international, regional and local economic or competitive conditions and developments; possible changes in credit ratings; capital and credit markets conditions; interest rates; the political and economic stability of oil producing nations; energy markets, including changes in the price of certain commodities; weather, alternative energy sources, conservation and technological advances that may affect price trends and demand; business and regulatory or legal decisions; the timing and success of business development efforts; acts of nature, accidents, sabotage, terrorism (including cyber attacks) or other similar acts causing damage greater than the insurance coverage limits of the combined company; and the other factors and financial, operational and legal risks or uncertainties described in KMI’s, KMP’s, KMR’s and EPB’s Annual Reports on Form 10-K for the year ended December 31, 2013 and other subsequent filings with the SEC. KMI, KMP, KMR and EPB disclaim any intention or obligation to update any forward-looking statements as a result of developments occurring after the date of this communication, other than as required by applicable law.

We use non-generally accepted accounting principles ("non-GAAP") financial measures in this presentation. Our reconciliation of non-GAAP financial measures to comparable GAAP measures can be found in the Appendix to our Analyst day presentation, dated 1/29/2014, on our website at www.kindermorgan.com. These non-GAAP measures should not be considered an alternative to GAAP financial measures.
### Transaction Overview

- **KMI will acquire all of the outstanding common units of KMP and EPB and all outstanding shares of KMR**

- **$71.0 billion total purchase price**
  - $40.0 billion KMI equity
  - $4.0 billion cash (commitment letter for full amount)
  - $27.0 billion of assumed debt

- **KMI management will remain unchanged; KMI's Board of Directors may increase by up to 6 with 3 from KMP and 3 from EPB**

- **Transaction is expected to close in Q4 2014, subject to shareholder and regulatory approvals**

---

(a) Closing prices on 7/16/2014, the reference date used by the parties during the negotiation of the transaction.
### Value Enhancing Combination

| Significant Upfront Dividend Increase | ■ 2015E KMI dividend per share expected to be $2.00 with significant coverage  
■ 16% dividend increase from 2014 guidance of $1.72 |
| Enhances Future Dividend Growth | ■ 10% annual growth rate expected for at least the next 5 years thereafter (2015-2020)  
■ This is before taking into account a larger opportunity set driven by a lower cost of capital |
| Improves Dividend Coverage | ■ Visible absolute dollar coverage of over $2.0 billion  
■ 6 years of coverage averaging approximately 1.1x |
| Lowers Cost of Capital | ■ Eliminates IDRs which significantly lowers cost of capital  
■ Results in more competitive cost of capital to pursue expansion and acquisitions in a target-rich environment  
   — Potential consolidation in MLP space (>120 energy MLPs today with >$875Bn EV)\(^{(a)}\)  
   — Over $640 billion of investment in energy infrastructure needed through 2035\(^{(b)}\)  
■ Tax attributes of combination lowers cash taxes |
| Expected Investment Grade Ratings | ■ 5.6x 2015 Debt / EBITDA leverage, with a target range of 5.0-5.5x  
■ Eliminates structural subordination  
■ Provides more simplicity and flexibility |
| Significant Value to MLP Unitholders | ■ Provides immediate and meaningful value uplift  
■ Cash flow dilutive in short-term; significantly accretive in medium and long-term  
■ Majority equity consideration allows KMP, KMR and EPB stakeholders to share in future growth |
| World Class Asset Base | ■ Largest energy infrastructure company in North America  
■ Over 82% of cash flows are fee-based, and 94% are fee-based or hedged for 2014 |

---

Simplified Organizational Structure

Current Public Structure

- Kinder Morgan, Inc. (NYSE: KMI)
  - 13% Listed Shares
  - 100% Voting Shares
- Kinder Morgan Management, LLC (NYSE: KMR)
  - 100% Interest
- Kinder Morgan Energy Partners, L.P. (NYSE: KMP)
  - GP Interest and 8% LP Interest
- El Paso Pipeline Partners, L.P. (NYSE: EPB)
  - GP Interest and 41% LP Interest

Simplified Public Structure

- Kinder Morgan, Inc. (NYSE: KMI)
  - One publicly traded company vs. four results in:
    - One equity holder base
    - One dividend policy
    - One debt rating
    - No structural subordination
    - No incentive distribution rights

KMP 2014B Segment Earnings before DD&A = $6.4 billion
EPB 2014B Segment Earnings before DD&A = $1.3 billion

PF Consolidated KMI 2014B Segment Earnings before DD&A = $8.0 billion

- 82% of cash flows are fee-based; 94% are fee-based or hedged for 2014

Note: Above organizational diagrams are simplified representations reflecting only the publicly traded entities.
One Easy Way to Invest in North America’s Largest Energy Infrastructure Company

- 3rd largest energy company in North America with estimated combined pro forma enterprise value of ~$140 billion (a)
- $17 billion of currently identified organic growth projects
- Largest natural gas network in North America
  - Own an interest in / operate ~68,000 miles of natural gas pipeline
  - Connected to every important U.S. natural gas resource play, including: Eagle Ford, Marcellus, Utica, Uinta, Haynesville, Fayetteville and Barnett
- Largest independent transporter of petroleum products in North America
  - Transport ~2.3 MMBbl/d (b)
- Largest transporter of CO2 in North America
  - Transport ~1.3 Bcf/d of CO2 (b)
- Largest independent terminal operator in North America
  - Own an interest in or operate ~180 liquids / dry bulk terminals
  - ~125 MMBbls domestic liquids capacity
  - Handle ~103 MMtons of dry bulk products (b)
  - Strong Jones Act shipping position
- Only Oilsands pipe serving West Coast
  - Transports ~300 MBbl/d to Vancouver / Washington State; proposed expansion takes capacity to 890 MBbl/d

(a) Pro forma enterprise value of KMI based on pro forma yield and net debt.
(b) 2014 budgeted volumes.

Source: FactSet and Wall Street research.

(a) KMI data shown at beginning-year 2015 pro forma for KMP / KMR / EPB acquisitions.
(b) Includes all companies which meet the following criteria: in S&P 500, market cap > $75 billion, LQA dividend > ~3%, 2014 – 2016 dividend growth > ~5%. 2015-2017 dividend growth rates generally not available.
Benefits of a C-Corp

- Simplifies structure; creates one public equity class
- Lowers cost of capital and creates a more competitive acquisition currency
- Significant income tax savings from the acquisition amounting to ~$20 billion over ~14 years
- Over half of combined KMP and EPB cash flows are already taxed at KMI under current structure
- Broader pool of capital available to C-Corp
How the Math Works

- Lower cost of capital benefits initial acquisition and future capital investments
- Less equity issuance required
- Tax depreciation (from existing basis and future capex) utilized by company versus being passed on to unitholders
- Modest cost synergies

Based on the four attributes listed above only, transaction would enable KMI to:
- Increase its 2015 target dividend per share above the 2015 expected status quo
- Grow its dividend per share by an average of 8% per year from 2015 through 2020

In addition, tax depreciation from asset step-up will further enable KMI to:
- Increase its 2015 target dividend per share to $2.00
- Grow its dividend per share by an average of 10% per year from 2015 through 2020
- Generate significant cash coverage from 2015 through 2020

### Status Quo Expected Dividend / Distribution Growth Rate

<table>

</tr>
</tbody>
</table>

Minimal Coverage

### Primary 2015-2020 Asset Level Assumptions
- 9% average annual EBITDA growth
- ~$3.6 bn/yr average growth capex (excl. TMX)
- $5.2 bn for Transmountain
- EBITDA growth rate and capex vary by year

### Pro-Forma Expected Dividend Growth Rate
- 2015-2020: 10%

Over $2.0 Billion of Coverage

### Difference in Growth Rates Driven By:

- Lower cost of capital benefits initial acquisition and future capital investments
- Less equity issuance required
- Tax depreciation (from existing basis and future capex) utilized by company versus being passed on to unitholders
- Modest cost synergies

Based on the four attributes listed above only, transaction would enable KMI to:
- Increase its 2015 target dividend per share above the 2015 expected status quo
- Grow its dividend per share by an average of 8% per year from 2015 through 2020

In addition, tax depreciation from asset step-up will further enable KMI to:
- Increase its 2015 target dividend per share to $2.00
- Grow its dividend per share by an average of 10% per year from 2015 through 2020
- Generate significant cash coverage from 2015 through 2020

(a) 2013 – 2016 per 2014 analyst conference presentation.
(b) Status quo and pro-forma utilize same asset level and capex projections / assumptions for the years included in both sets of projections except for modest cost synergies included in the pro forma.
(c) Total project = $5.4 billion. Some spending prior to 2015.
(d) Based on the following assumptions: includes depreciation from KMP and EPB existing assets and projected capex, set coverage at 1.0x, target roughly 5.0-5.5x debt/EBITDA.
Significantly Lower Hurdle for Growth

Same Level of Capex Generates Double the Growth at Pro Forma KMI vs Status Quo KMP

<td>29%</td>
</tr>
</tbody>
</table>

\(1\) Calculated as 2014 distribution guidance of $5.58/ unit divided by current KMP unit price of $80.34.

\(2\) Based on exchange ratio. 2015-2020 KMI price based conservatively on KMI yield level of 4.50%.

\(3\) Based on KMI’s 8/8/2014 closing price of $36.12, taxes for an average unitholder are estimated to be $12.39/unit. Based on an assumed KMI price of $44.44 ($2.00 dividend and a conservative 4.5% KMI yield), taxes for an average unitholder are estimated to be $16.41/unit. These represent approximate calculations for an average unit holder. Actual gain could be more or less. Assumes passive losses have not been utilized and can be utilized on the sale to offset ordinary income. Assumes individual tax rate of 35% for ordinary income and 22% for capital gains for illustrative purposes. If the maximum federal rates of 40.5% for ordinary income, and 23.8% for capital gains are used, approximate taxes are estimated to be $13.81/unit and $18.16/unit at KMI prices of $36.12 and $44.44, respectively. KMP unitholders will receive basis in KMI shares received equal to KMI’s price at closing.

\(4\) Calculated by adjusting KMP’s expected distributions by the percentage of cash consideration received.

\(5\) Calculated by multiplying the exchange ratio by the KMI pro forma dividend.

| **Pro Forma Dividend to EPB Unitholders**<sup>(5)</sup> | $1.89 | $2.08 | $2.29 | $2.52 | $2.77 | $3.04 |
| **Accretion / (Dilution) - $** | ($0.40) | ($0.21) | ($0.12) | $0.07 | $0.24 | $0.44 |
| **Accretion / (Dilution) - %** | (17%) | (9%) | (5%) | 3% | 9% | 17% |
| **Cumulative Accretion / (Dilution) - $** | ($0.40) | ($0.61) | ($0.72) | ($0.65) | ($0.42) | $0.02 |

---

1) Calculated as 2014 distribution guidance of $2.60/unit divided by current EPB unit price of $33.60.
2) Based on exchange ratio. 2015-2020 KMI price based conservatively on KMI yield level of 4.50%.
3) Based on KMI’s 8/8/2014 closing price of $36.12, taxes for an average unitholder are estimated to be $2.88/unit. Based on an assumed KMI price of $44.44 ($2.00 dividend and a conservative 4.5% KMI yield), taxes for an average unitholder are estimated to be $4.61/unit. These represent approximate calculations for an average unitholder. Actual gain could be more or less. Assumes passive losses have not been utilized and can be utilized on the sale to offset ordinary income. Assumes individual tax rate of 35% for ordinary income and 22% for capital gains for illustrative purposes. If the maximum federal rates of 40.5% for ordinary income, and 23.8% for capital gains are used, approximate taxes are estimated to be $3.25/unit and $5.12/unit at KMI prices of $36.12 and $44.44, respectively. EPB unitholders will receive basis in KMI shares received equal to KMI’s price at closing multiplied by the exchange ratio.
4) Calculated by adjusting EPB’s expected distributions by the percentage of cash consideration received.
5) Calculated by multiplying the exchange ratio by the KMI pro forma dividend.
Significant Historical Returns (a)

Source: Bloomberg.
(a) Total returns calculated on daily basis through 8/8/2014; assumes dividends / distributions reinvested in index / stock / unit. 8/8/2014 prices based on closing price for KMI of $36.12 and exchange ratios of 2.1931x, 2.4849x, and 0.9451x for KMP, KMR and EPB, respectively, plus cash per unit of $10.77 and $4.65 to KMP and EPB, respectively.
(b) Start date 12/31/1996.
(c) Start date 5/14/2001; KMR initial public offering.
(d) Alerian MLP Index.
(e) Start date 5/25/2012; EP acquisition close.
Combined KMI Strategy Remains the Same

Same Strategy Since Inception

- Focus on stable fee-based assets that are core to North American energy infrastructure
  - Market leader in each of our business segments
- Control costs – It’s the investors’ money, not management’s – treat it that way
  - Dividend policy will remain consistent with past practice
- Leverage asset footprint to seek attractive capital investment opportunities, both expansion and acquisition
  - Since 1997, KMP has completed approximately $24 billion in acquisitions and invested approximately $20 billion in greenfield / expansion projects (a)
  - With a lower cost of capital, we believe this transaction will increase our opportunity set
- Maintaining a strong balance sheet is paramount
  - KMP has accessed capital markets for approximately $43 billion since inception (b)
  - Investment grade since inception
  - Target 5.0-5.5x Debt/EBITDA level for pro forma entity
- Transparency to investors
- Keep it simple
  - One publicly traded company instead of four

(a) From 1997 inception through 2Q 2014.
(b) Gross long-term capital issued from 1997 inception through 2Q 2014. Net of refinancing, approximately $39 billion of capital raised.
Summary Transaction Timeline

- Expect KMI and KMR shareholder meetings and unitholder meetings for KMP and EPB in Q4 2014
- Expect closing in Q4 2014
- Subject to customary regulatory approvals – no regulatory delays expected
Appendix
Cross-Guarantees Overview

- KMI will consolidate its subsidiaries under a single C-corp as follows:
  - Acquire public shares of KMR and public units of KMP and EPB
  - EPB is acquired by KMP
  - Execute cross guarantees among KMI, KMP and substantially all wholly owned operating subsidiaries and subsidiaries which hold our interest in JVs

- Cross-guarantees are being used instead of merging KMP or moving / refinancing existing KMP and EPB debt due to potential tax considerations, JV right of first refusals, uneconomic make-whole provisions, and rate making considerations

- KMI will have full control over operated assets
  - KMP will become 100% owned with fully cross-guaranteed debt

- Guarantees will be among and between KMI, KMP and all significant EBITDA-generating subsidiaries
  - Included entities represent approximately 90% of consolidated EBITDA; ~10% of consolidated EBITDA excluded primarily relates to EBITDA generated by SFPP and Calnev
  - EPB will be acquired by KMP thereby making KMP the owner of 100% of pro forma organization cash flows

- Guarantees will be absolute and unconditional
18 Years of Consistent Growth at KMP

KMP Total Distributions (GP + LP) ($MM)

KMP Annual LP Distribution per Unit (c)

KMP Net Debt to EBITDA (d)

(a) 2014 budget.
(b) In 2010, total distributions paid were $2,280 million. These distributions would have been $2,450 million ($170 million greater) if all distributions paid in August 2010 had been cash from operations, rather than a portion being a distribution of cash from interim capital transactions; the GP receives only 2% of distributions of cash from interim capital transactions.
(c) Annual LP declared distributions, rounded to 2 decimals where applicable.
(d) Debt is net of cash and excluding fair value of interest rate swaps.
Financial Rigor
Promises Made, Promises Kept

**Promises Made**

**KMI Budgeted Dividend:**
- 2011: $1.16
- 2012: $1.35
- 2013: $1.57

**KMP Budgeted LP Distribution:**
- 2000: $1.60
- 2001: $1.95
- 2002: $2.40
- 2003: $2.63
- 2004: $2.84
- 2005: $3.13
- 2006: $3.28
- 2007: $3.44
- 2008: $4.02
- 2009: $4.20
- 2010: $4.40
- 2011: $4.60
- 2012: $4.98
- 2013: $5.28

**EPB Forecasted LP Distribution:**
- 2012: $2.25
- 2013: $2.55

**Promises Kept**

**KMI Actual Dividend:**
- 2011: $1.20
- 2012: $1.40
- 2013: $1.60

**KMI Actual LP Distribution:**
- 2000: $1.71
- 2001: $2.15
- 2002: $2.435
- 2003: $2.63
- 2004: $2.87
- 2005: $3.13
- 2006: $3.26
- 2007: $3.48
- 2008: $4.02
- 2009: $4.20
- 2010: $4.40
- 2011: $4.61
- 2012: $4.98
- 2013: $5.33

**KMP Actual LP Distribution:**
- 2012: $2.25
- 2013: $2.55

(a) Presented as if KMI were publicly traded for all of 2011.
## 5-year Project Backlog (a)

**Not included in backlog:**
- Marcellus / Utica liquids (y-grade) pipeline solution
- Further LNG export opportunities
- Large TGP Northeast expansion
- Further Mexico natural gas expansion projects
- Coal / other natural resource investments
- Potential acquisitions

(a) Highly-visible backlog consists of current projects for which commercial contracts have been either secured, or are at an advanced stage of negotiation. Total capex for each project, shown in year of expected in-service; Vast majority of projects are expected to go into service within five years; projects in-service prior to 6/30/2014 excluded. Includes KM's proportionate share of non-wholly owned projects.

(b) CO₂ EOR = Enhanced Oil Recovery.

| KMP Return on Equity        | 17.2%| 19.4%| 20.9%| 21.7%| 23.4%| 23.9%| 22.6%| 22.9%| 25.2%| 25.2%| 24.3%| 24.0%| 24.0%| 21.7% |

Note: a definition of these measures may be found in the Appendix to our Analyst day presentation, dated 1/29/2014, on our website at www.kindermorgan.com.  
(a) G&A is deducted to calculate the KMP ROI, but is not allocated to the segments and therefore not deducted to calculate the individual Segment ROI.  
(b) The denominator includes approximately $1.1 billion in REX capital not recovered in sale price (i.e., leave behind). Excluding the leave behind increases the Natural Gas Pipelines ROI to 12.3% in 2013, and the KMP ROI to 13.0% in 2013.
~$46.5B of Growth Capital Invested at KMP (a,b)

Notes: Includes equity contributions to joint ventures.
(a) From 1997 through full-year 2014 (forecast).
(b) 2012 net of proceeds from FTC Rockies divestiture.

Power Generation + 2.6 / 7.2 Bcf/d (b)

Industrial (petchem) + 2.9 / 3.8 Bcf/d (b)

Exports to Mexico + 1.7 / 2.5 Bcf/d (b)

LNG Export + 5.0 / 10.1 Bcf/d (b)

(a) Source: Wood Mackenzie H1 2014 Long-Term View.
(b) Projected 5-year / 10-year increase.
... Generating Real-time, Long-term Benefits

$641B of investment in midstream energy infrastructure needed through 2035, implying $29B per year annual spend (a) compared to $18B annual spend by MLPs (b) over past five years

- Kinder Morgan’s unparalleled natural gas footprint is well-positioned to address North America’s need for more infrastructure
  - Natural gas comprises significant percentage of our cash flow: KMP ~43%, EPB 100%, KMI ~54% (c)
  - Own or operate ~68,000 miles of natural gas pipeline, and moved ~33 Bcf/d out of a total U.S. market of ~100 in January 2014
  - Well-positioned relative to major trends (Marcellus / Utica, exports to Mexico, LNG export, power generation, petchem, etc.)

- Natural gas a significant, growing component of backlog
  - $4.6 billion of natural gas projects in backlog, $1.9 billion net increase from $2.7 billion at year-end 2013
  - Natural gas backlog substantially backed by long-term, take-or-pay contracts
  - Attractive returns secured for natural gas backlog; average EBITDA multiple approximately 5x
  - $18 billion of additional identified projects in development

- Significant recent demand for long-term natural gas capacity across all KM entities
  - Since December 2013, 3.7 Bcf/d of new take-or-pay contracts secured at attractive rates
  - Represents 11% of the total existing design capacity of the underlying pipelines
  - Very long-term commitments with an average contract tenor of 16 years
  - New capacity demand represents $1.8 billion of growth capital investment
  - 1.1 Bcf/d in-service in 2014, 1.0 Bcf/d in 2015 and 1.6 Bcf/d thereafter
  - When pending contracts are included, the total since December 2013 increases to 5.3 Bcf/d

(b) 2009-2013E capital spend on investment projects by MLPs. Source: Wells Fargo as of 12/31/2013.
(c) Natural Gas Segment percentage of 2014 budgeted segment earnings before DD&A including proportionate share of JV DD&A and excluding certain items for KMP, EPB and KMI, respectively.
Well-positioned connecting key natural gas resource plays with major demand centers

### Project Backlog:
- $4.6 billion of identified growth projects over next seven years (a), including:
  - LNG liquefaction (FTA @ Elba Island)
  - Pipe projects supporting LNG liquefaction projects
  - TGP north-to-south projects
  - Eagle Ford gathering & processing
  - SNG / Elba Express expansions
  - Expansion to Mexico border

### Long-term Growth Drivers:
- **Natural gas the logical fuel of choice**
  - Cheap, abundant, domestic and clean
- **Unparalleled natural gas network**
  - Sources natural gas from every important natural gas resource play in the U.S.
  - Connected to every major demand center in the U.S.
- **Demand growth and shifting supply from multiple basins**
  - Power / gas-fired generation
  - Industrial and petchem demand
  - Growth in Mexican natural gas demand
  - Repurposing portions of existing footprint
  - Greenfield development
- **LNG exports**
- **Expand service offerings to customers**
- **Acquisitions**

### Operations:
- Very good project development performance: on a net basis within 1% of approved costs on major projects
- Better than industry average performance on release and safety measures
- On-time compliance with EHS requirements: 99+%
Project Backlog:
- $1.0 billion of identified growth projects over next two years (a), including:
  - Cochin reversal / conversion
  - Eagle Ford condensate processing
  - KMCC extensions
  - KMCC Double Eagle interconnect

Long-term Growth Drivers:
- Development of shale play liquids transportation and processing (e.g. UTOPIA)
- Repurposing portions of existing footprint in different product uses (e.g. Y-grade)
- Tariff index adjustments
- Tuck-in acquisitions
- Recovery in refined product volumes

Operations:
- Very good project development performance: on a net basis within 1% of approved costs on major projects
- Better than industry average performance on release rates on liquids pipelines (Products, CO₂, KMC)
- Better than industry average performance on safety measures
- On-time compliance with EHS requirements: 99.8%

(a) Excludes acquisitions, includes KM's share of non-wholly owned projects. Includes projects currently under construction.
**Terminals**

**Segment Outlook**

---

**Project Backlog:**
- $2.2 billion of identified growth projects over next five years\(^{(a)}\), including:
  - **Liquids**
    - BOSTCO Phases 2 & 3
    - Alberta crude by rail projects
    - Chemical terminal development
    - SCT Jones Act tanker builds
    - Houston terminals network expansion
    - Edmonton Phase 2 expansion
  - **Bulk**
    - Deepwater coal handling facility
    - Vancouver Wharves facility improvements (agri, copper, sulfur, and chemical)

**Long-term Growth Drivers:**
- Gulf Coast liquids exports
- Crude oil merchant tankage
- Crude by rail
- Newbuild / expansion of export coal terminals
- Chemical infrastructure and base business growth built on production increases
- Tuck-in acquisitions
- Potential investment in coal reserves and other natural resources

**Operations:**
- Project development performance: 6.5% overrun on a net basis across major projects
- Better than industry average performance on safety measures – continuous improvement over several years
- On-time compliance with EHS requirements: 99.6%

---

\(^{(a)}\) Excludes acquisitions, includes KM’s share of non-wholly owned projects. Includes projects currently under construction.
CO₂
Segment Outlook

Own and operate best source of CO₂ for EOR (a)

Project Backlog:
- Identified growth projects totaling $1.8 billion and $2.0 billion in S&T and EOR (b), respectively, over next five years (b), including:
  - S&T
    - Southwest Colorado CO₂ production
    - St. Johns build-out
    - Cortez and Lobos pipelines
  - Oil Production
    - SACROC / Yates / Katz / Goldsmith / Residual Oil Zone

Long-term Growth Drivers:
- Strong demand for CO₂ drives volume and price
- Billions of barrels of domestic oil still in place to be recovered at SACROC, Yates, Katz and Goldsmith, as well as Residual Oil Zone opportunities

Operations:
- Project development performance: within 6% on a net basis across major projects (overrun)
- Slightly better than industry average on three of five safety measures
- On-time compliance with EHS requirements: 99.9%

(a) EOR = Enhanced Oil Recovery.
(b) Excludes acquisitions, includes KM's share of non-wholly owned projects. Includes projects currently under construction.
Kinder Morgan Canada
Segment Outlook

Project Backlog:
- $5.4 billion expansion of Trans Mountain Pipeline

Long-term Growth Drivers:
- Expand Oilsands export capacity to West Coast and Asia
  - Following successful open season, major expansion plans under way
  - The Trans Mountain Pipeline Expansion Project (TMEP) more than doubles capacity, from 300 MBbl/d currently to approximately 890 MBbl/d
  - Strong commercial support from shippers with binding long-term contracts (~93% 20-yr, ~7% 15-yr) for 708 MBbl/d of firm transport capacity
  - Projected cost of $5.4 billion
  - Proceeding with project design, planning and consultation
  - NEB facilities application filed in December 2013
  - Expected in-service end of 2017
- Expanded dock capabilities (Vancouver)
  - TMPL expansion will increase dock capacity to over 600 MBbl/d
  - Access to global markets

Operations:
- Project development performance: in early stages on TMEP, but commercial terms include good cost protection on “uncontrollable” costs.
- Better than industry average on safety measures.
- On-time compliance with EHS requirements: 99.6%
## Toll Road-like, Fee-based Business Model

All figures as of 1/1/2014 except where noted.
(a) Transportation for intrastate pipelines includes term purchase and sale portfolio.
(b) Percent of expected Jul-Dec 2014 net crude oil and heavier natural gas liquids (C4+) production.
(c) Terminals not FERC regulated, except portion of CALNEV.
(d) Jones Act vessels average contract term of 4.4 years excludes options to extend (10 vessels in total: 5 existing and 5 newbuild to be delivered 2015-17). Including options to extend, average contract term is 6.6 years.
Risks

- Regulatory (KMP/EPB/KMI)
  - Products Pipeline FERC / CPUC cases
  - Natural Gas FERC rate cases
  - Legislative and regulatory changes

- Crude oil production volumes (KMP)

- Commodity prices (KMP)
  - CO₂ oil production
    - 2014 budget assumes $96.15/Bbl realized price on unhedged barrels
    - 2014 commodity price sensitivity is ~$7 million DCF per $1/Bbl change in crude price
  - Natural Gas Midstream
    - 2014 commodity price sensitivity is ~$1 million DCF per $1/Bbl and $0.50/MMBtu change in oil and natural gas prices, respectively (a)

- Economically sensitive businesses (e.g., steel terminals) (KMP)

- Environmental (e.g., pipeline / asset failures) (KMP/EPB/KMI)

- Terrorism (KMP/EPB/KMI)

- Interest rates (KMP/EPB/KMI)
  - Full-year impact of 100-bp increase in floating rates equates to ~$55 million increase in interest expense at KMP (b)

---

(a) Natural Gas Midstream sensitivity incorporates current hedges, assumes same directional move in oil and gas prices, ethane rejection, flat ethane frac spread, and assumes other NGL prices maintain relationship with oil prices.

(b) As of 6/30/2014 approximately $5.5 billion of KMP’s total $20.7 billion in net debt was floating rate.
