November 17, 2005

All amounts in U.S. dollars unless otherwise noted.
This presentation contains forward looking statements, including these, within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Exchange Act of 1934, as amended. Forward looking statements are not guarantees of performance. They involve risks, uncertainties and assumptions. The future results and securities values of Kinder Morgan Inc., Kinder Morgan Energy Partners, L.P. and Kinder Morgan Management, LLC (collectively known as “Kinder Morgan”) may differ materially from those expressed in the forward-looking statements contained throughout this presentation and in documents filed with the SEC. Many of the factors that will determine these results and values are beyond Kinder Morgan's ability to control or predict. These statements are necessarily based upon various assumptions involving judgments with respect to the future, including, among others, completion of the proposed transaction and realization of the benefits there from, the ability to achieve synergies and revenue growth; national, international, regional and local economic, competitive and regulatory conditions and developments; technological developments; capital markets conditions; inflation rates; interest rates; the political and economic stability of oil producing nations; energy markets; weather conditions; environmental conditions; business and regulatory or legal decisions; the pace of deregulation of retail natural gas and electricity and certain agricultural products; the timing and success of business development efforts; terrorism; and other uncertainties. You are cautioned not to put undue reliance on any forward-looking statement.
KMI-TER Transaction Overview (a)

- **$5.6 billion total purchase price**
  - $3.1 billion in equity
  - $2.5 billion in assumed debt

- **KMI will purchase all of TER’s outstanding stock**

- **Equity consideration will be financed ~ 65% in cash and ~ 35% in stock (b)**
  - 0.1165 KMI shares for each TER share: $10.37 (C$12.37)/share
  - Cash consideration of $19.49 (C$23.25)/share
  - Totaling approximately $29.86 (C$35.62)/TER share
  - 20% premium to 20 day average price (at announcement)

- **Headquartered in Houston, with Rich Kinder as Chairman and CEO**

- **TER Gas Headquarters remain in Vancouver, Pipeline in Calgary**

Note: All amounts in U.S. dollars unless otherwise noted.

(a) As of Nov-15-2005. Assumes USD/CAD exchange ratio of 0.8384, KMI price = $88.99/share unless otherwise noted.

(b) On average. Terasen shareholders will be able to elect, for each TER share held, either (i) C$35.75 in cash, (ii) 0.3331 shares of KMI common stock, or (iii) C$23.25 in cash plus 0.1165 shares of KMI common stock. All elections will be subject to proration in the event total cash elections exceed approximately 65 percent of the total consideration to be paid or total stock elections exceed approximately 35 percent.
Strategic Rationale

- **Stable, regulated, low risk assets**

- **Solid earnings accretion**
  - ~ $5.00/share KMI pro-forma 2006E earnings
  - ~ 6-8% accretion to KMI 2006E stand alone EPS

- **Strong cash flow generation**
  - Almost $800 million in 2006E cash flow (a)
  - $3.50/share 2006 expected dividend
  - Represents 58% increase in TER dividend, 17% increase in KMI

- **Substantial expansion opportunities from Canadian oilsands**
  - Production expected to double in next 5-7 years
  - Pipeline, Terminals and CO₂
  - EPS and Dividend growth rate expected to be 10%

- **Solid Credit**
  - Expect to maintain BBB
  - 56% debt to total cap at close, declining thereafter

Note: All amounts in U.S. dollars unless otherwise noted.
(a) Cash flow is defined as pre-tax income before depletion, depreciation, and amortization, less cash paid for income taxes and sustaining capital expenditures.

The Kinder Morgan Strategy

Same Strategy Since Inception

- Focus on stable, fee-based assets which are core to the energy infrastructure of growing markets

- Increase utilization of assets while controlling costs
  - Classic fixed cost businesses with little variable costs
  - Improve productivity to drop all top-line growth to bottom line

- Leverage economies of scale from incremental acquisitions and expansions
  - Reduce needless overhead
  - Apply best practices to core operations

- Maximize benefit of a unique financial structure which fits with strategy
  - MLP avoids double taxation, increasing distributions from high cash flow businesses
  - Strong balance sheet allows flexibility when raising capital for acquisitions / expansions
Management Philosophy

- Low Cost Asset Operator
- Attention to Detail
- Disciplined Capital Allocation
- Risk Management
- Transparency
- Cash is King
- Alignment of Incentives
- Business Unit Autonomy

Risks

- **Regulatory**
  - Pacific Products Pipeline FERC/CPUC case
  - Periodic rate reviews
  - Unexpected FERC policy changes

- **Environmental**

- **Terrorism**

- **Interest Rates**
  - 50% of debt is floating rate
  - Budget assumes approximately 100 bps increase in floating rates over the year
  - The full-year impact of a 100-bp increase in rates equates to an approximate $27 million increase in expense at KMP and $15 million at KMI

Note: All amounts in U.S. dollars unless otherwise noted.
